### TEA TIME |  Restaurant Software

- Backend developed by Node.js, enabling real-time order tracking, authentication, and notifications.
- Frontend developed using Flutter, ensuring a smooth and responsive user interface
- Leveraged Firebase for secure data storage and seamless backend integration

## Skills

### Front-End Development
- Flutter
- HTML
- CSS
- JavaScript
- Bootstrap

### Back-End Development
- Express
- Python
- C
- Node js
- MySQL
- .Net
- Firebase
- Supabase

### Technologies
RESTful APIs , CI/CD , Machine , Git , Jira

### Architecture
MVC , Clean Architecture , Riverpod

### Soft Skills
- Problem Solving
- Agile/Scrum
- Team Player
- Communication
- Adaptability
- Collaboration

### Education
- **BCA** ( Bachelor of Computer Application ) from University of Calicut
- **MCA** ( Master of Computer Application ) from University of Mysore

### Interest
- Travel
- Fitness
- Reading
- Nutrition
- self improvement
